RE: North Pocono School District School Real Estate Tax -Lehigh  
Township

*Of Counsel*

Dear Attorney Magnotta:

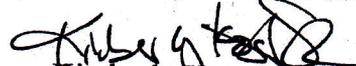

I am writing to inform you that the review of the North Pocono School District Tax Equalization calculations has concluded. Both the Pennsylvania Department of Education and an external auditor for the District reviewed the current tax computation model utilized to collect taxes in Lehigh Township as well as the alternative tax calculations available under the Public School Code.

Both parties have resolved that the present formula utilized by the District is legally, mathematically and theoretically sound. In fact the alternative formulae available under the Public School Code would only produce a higher tax payable by the tax payers.

As always, should you have any questions or would like to further discuss this matter please do not hesitate to contact me.

Very truly yours,

OLIVER, PRICE & RHODES
